

Description:

Introducing the latest innovation from Von Arx – the FG250S surface grinder, designed to revolutionize your flooring preparation requirements. The Von Arx FG250S is a compact and powerful surface grinder, making surface preparation easy, the durable design and build makes this ideal for tool hire industry, suitable for both professional and DIY use.

The FG250S is available in both 110V- & 240-volt options with a variety of grinding discs available (Listed below), depending on the surface area you are looking to prepare will determine your choice of grinding disc (Not supplied with machine)

Some of the key features of the FG250S include:

Folding adjustable handles makes this easy to transport (Can fit in the boot of a small car) with options to adjust the height.

The water-cooling system allows you to connect a hose via a quick release coupling, with a constant feed of water keeps the grinding disc operating at an optimal temperature and reduces dust and debris.

With Health & Safety always in mind the FG250S also comes with a 50mm dust extractor hose connector which allows you to connect to a dust extractor, the HEPA 13 Von Arx S2 is the perfect match!

Edge Grinding can always be a chore but with the integrated Rotating Head simply pull the pin and rotate the head either left or right to turn the FG250S into an Edge Grinder, coupled with the integrated levelling tool this ensures precise and even surface grinding and fitted with large solid tyre wheels makes manoeuvring easy.

Diamond Grinding Discs Available:

VA900964: Soft concrete & screed grinding (Blue)
VA900965: Medium concrete grinding (Green)
VA900966: Hard grinding (Red)
VA900974: PCD grinding (Orange)

Specification:

- Power Package: 110V 1.5KW electric motor
- Working Width: 25cm
- Machine Speed: 12M/min
- Dimensions – 62-98 cm x 42cm x 108cm (H x W x L)
- Weight – 51Kg
- 1410 RPM
- Noise 90 dBA
- Plug 16A 110V
- Vibration levels 2.5ms²
- Quick Connector water inlet
- 50mmØ Dust extraction connection
